Re: antibiotics

Dear Ms Henney:

I agree with the EDF, antibiotics use should be limited
treating sick animals (and humans), not for promoting growth in
animals.

How many people are alive today only because of antibiotics?
I am one. By limiting use to only serious need (illness), maybe we
will prevent, or at least slow, antibiotic resistance.

Please revoke the current approval for use in animals for
other than treatment of sickness.

Sincerely,

Tony Hodlofski
